Professional Summary

Software Engineer with **3+ years equivalent experience** across professional roles, internships, and freelance projects. Skilled in **React, React Native, Next.js, and Node.js**, with proven ability to deliver responsive, scalable, and user-centric applications. Experienced in both web and mobile development, API integrations, and full product lifecycles. Recognized on the **Dean's Honor List at Humber College** for consistent academic excellence.

Core Competencies, *React, React Native, Next.js, Node.js, REST APIs, WebSockets, JWT, Agile, UI/UX*

Professional Experience

Software Engineer, ThinkSwift May 2025 – Present | Toronto, Canada

- Built and optimized front-end features for **Balkan Date**, a cross-platform dating app (React Native, Expo, Zustand).
- Developed **real-time chat with WebSocket**, including typing indicators, offline support, and push notifications.
- Integrated third-party services such as **iDenfy identity verification** into the product.
- Collaborated in an **Agile team** environment, contributing to sprint planning, code reviews, and UI/UX consistency.

Software Developer Intern, Zodiac Group Jan 2025 – Apr 2025 | Toronto, Canada

- Developed a **caregiver-patient communication system** using WebSockets and JWT authentication.
- Designed and implemented a **modular notification system** for cross-platform alerts and updates.
- Built responsive UI components with **Vue.js** for chat, dashboards, and patient interaction modules.

Software Engineer, Freelance Sep 2021 – Aug 2023 | India (Remote)

- Delivered **5+ end-to-end web and mobile solutions** for clients in different industries.
- Integrated APIs such as **Stripe (payments)** and **Spotify (media)** into production apps.
- Designed responsive, user-friendly websites and mobile apps using **React, Next.js, and Node.js**.
- Managed client communication, project delivery, and UI/UX improvements independently.

Education

Graduate Certificate, Information Technology Solutions, Sep 2023 – Apr 2025 | Toronto, Canada
Humber College

Dean's Honor List, all four semesters

Bachelors, Computer Science & Engineering, Aug 2017 – Aug 2021 | Hyderabad, India
Jawaharlal Nehru Technological University

Selected Projects

GameSleuth (iOS App), Swift, SwiftUI, Firebase 🔗

- iOS app to browse real-time game deals, with Firebase authentication, Firestore sync, and offline Core Data storage.
- Designed a modern, animated UI in **SwiftUI** with smooth user interactions.

Event Sync (Web App), Next.js 14, MongoDB, Clerk, Mantine UI 🔗

- Built a responsive event discovery platform with user authentication and social interactions.
- Enhanced UX with **Framer Motion animations** and dark mode support.

Skills

Languages: TypeScript, JavaScript, Python, Java, Swift, HTML, CSS

Frameworks & Tools: React, React Native, Next.js, Node.js, Express.js, Firebase, MongoDB, Zustand, Vue.js, Expo, Git, Postman, Figma

Concepts: REST APIs, WebSockets, JWT Authentication, Agile Development, Responsive Design, SDLC
