SKILLS

C Programming	Java Programming
Python Programming	JavaScript
HTML	CSS
Bootstrap	Node.js
jQuery	React Native
Flutter	Firebase
Adobe Creative Suite	Microsoft Office

UNIVERSITY PROJECTS

University Application using React Native
(03/2021 - 05/2021)
- Designed and implemented a mobile application in a 4-person team using React Native as part of our final year project.
- Made it possible for students to view their attendance, download notes, view upcoming events, and check the timetable and their parents to verify their child's performance and get the contact details of the faculty.
- Enabled faculty members to mark the attendance and see their daily schedule.

Graphical Password Authentication System
(10/2020 - 12/2020)
- Designed and implemented a Java application in a 4-person team as part of our mini-project.
- Allowed users to use a graphical password (images) instead of an alpha-numeric password that can be prone to attacks.
